Wednesday, May 14, 1884. SENATOR LOGAN is right. The Mexican veterans are not paupers, and should not

be treated as such. Ir Blaine should be nominated by the Republicans would the Post support him as against the Demogratic nominee?

Mn. RANDALL must have felt very sad this morning when he read in the Blaine organ that he (Randall) existed for the said organ no longer as a Democrat.

"CLOUDY weather and local rains, fol-lowed by clearing weather." It does not take much of a man to make weather indications when Congress is in session.

SENATOR MORRILL was absent from the Senate yesterday for the first time during twenty-nine years of service in Congress. It would be better for the country if other representatives were as faithful.

OLD business men remember the ruin brought about by the discussion of the tariff question in 1837 and 1857. The suicidal policy is again being pursued by those who are looking for self-interest.

IF THE Democratic National Convention which meets in Chicago July 8 should nominate the old ticket the tariff question would cut a small figure in the campaign. It would not make as large a shadow in the sun as Bill Morrison does.

THERE weeks more and the Republican National Convention will meet in Chicago to nominate a candidate for President and Vice-President. Bisine is in the lead now, but is being handicapped by his organ here to such an extent as to render his nomination almost impossible. Look out for "Old Tecumseh!"

W. H. ENGLISH, of Indiana, the last Democratic nominee for Vice-President, has been in Washington some ten days, but does not have much to say on National politics except that he thinks the Democrats can win the next Presidency if they play the right cards. There is a great deal in that little word "if." It looks very much at present as though the "if" had been thrown away already.

EVEN John A. Walsh was ashamed of Ker and Brewster Cameron and refused to ride on the same train with them from Montreal. "My God!" he exclaimed when the found himself on the same car with them. And "Ker then thrusth is head out from his berth and said, 'I hope, Walsh, you won't think we got on the same train with you on purpose, Really it couldn't be helped." Says Walsh: "It is all right. We will go as far as New York and I will then get rid of you. Ker seemed uneasy and worried."

What a blessing it would be if the man elected to the Presidency next November could be one who would be President in fact; who would administer the laws without regard to party; whose ambitious would be to advance the importance and standing of his country instead of his party; whose chief aim would be the welfare of all the people, instead of a portion ; who would subordinate party to state manship and patriotism; an administration in which who should fill the offices would not be the cardinal principle.

The times are nearly ripe for such an administration.

When the men who organize "booms" and conspire and scheme to attain the nomination of their party are re tired in favor of the men who have patriotism broad enough, decision of character strong enough, reputation for integrity and honesty great enough to commend them to the suffrages of the honest thinking people, yet with virtue and modesty enough to cause them to refrain from entering into such unseemly strife as now governs the race for the Presidency, then the country

will be prosperous. In other words, it is time that the office

should seek the man, We have gone so far in the other direction-the man seeking the office-that unless we pause and turn, the seed we are sowing will surely bring forth fruit that will cause much trouble and danger, if not in the present generation, certainly in the near future, which will try the strength of republican institutions to their utter-

On the eve of the approaching conventions, which bid fair to outdo in all that is disgraceful and unseemly those that have gone before, is a good time for all patriotic men to reflect on the situation.

Memspaper Correspondents' Train for the Chicago Convention.

The Railtmore & Ghio special train to Chicago for the correspondents of the leading newspapers of the country at Washington and representatives of daily papers in Baltimore and Washington will leave for the West on Friday, May 30. The train will be for the exclusive use of these gentlemen, and will carry non-others, either as passengers or guesta, it will be a very handsome train of Baltimore at Ohio sheepers just out of the shope, and the Mann bondeir car, Adelian Pattl, which is considered to be one of the most superby appointed cars over built. The train will take aboard the Baltimore newspaper mon at 8:30 a.m., on the Boh Inst., at Camden Station. It will make a quick run to Washington, and is weller owith the party complete at 10 a.m.. Dinner will be served at the Queen City Hotel Comberiand, at 2:30, and supper during the evening on the train. Broaksat will be taken on the tout in a new dining-car, which will be attached to the train for the purpose. The arrival is chicago will be at 10 a. B. Saturday, possibly earlier. Mr. 1, 6. Paughors will have charge of the party, which is assumme that nothing will be left undone to render the trip one of great enjoyment. On the return trip the special will beyond the cap at such an hour after the final adjuarnment of the convention as been suits the convention of the convention of the analed for the prose by the Baltimore & Chilo Company for the Democratic Convention in July.

Ex Representative Burrows, of Michigan, who is one of the delegates-atcharge to the National Republican Convention, says that although the Michigan delegation has been put down as solid for Mr. Blaine, no one can tell how the delegation will vote.
